

POWER SUPPLY / SENSOR CONTROLLER

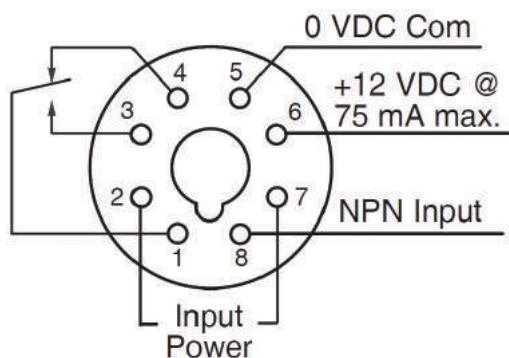

PS930/110V

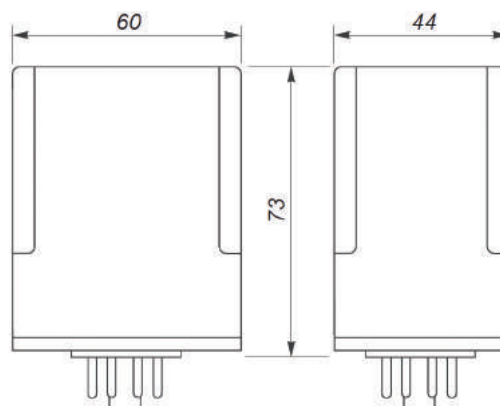

- Self contained module designed to provide 12 VDC @ 75mA to power a sensor and convert an NPN signal to a relay contact
- Supply Voltage : 110 VAC 50/60 Hz
- Converts the signal from one NPN signal
- SPDT contact rated 3A @ 250 VAC
- 20 millisecond response time
- Temperature range 10 to 55 C
- Includes DIN / screw mount 8 pin octal base socket (PF083A)

PS930/110V - 110 VAC Power
