WHO WE ARE

Powered by Sukup®, we are an automation partner solving real-world challenges.

Whether you are scaling production, modernizing systems, or navigating labor shortages, our team is here to simplify your operation with smarter tools, better support, and engineering insight that drives results. We work shoulder to shoulder with industrial customers across industries, combining technical expertise with a passion for progress.

MISSION

To deliver solutions that work for you, your team, and your future.

Choosing Ramco means partnering with experts who understand that precision and performance are non-negotiable.

**RAMCO IS
WHERE HONESTY,
RESPECT,
QUALITY, AND
CUSTOMER
SATISFACTION
AREN'T JUST
WORDS.**

**THEY ARE HOW
WE WORK.**

WHAT SETS US APART

1

People-First Support

Our team is your team. You will work directly with application engineers, product specialists, and local reps who understand your challenges and are ready to help.

2

Enhanced Services

From kitting and engraving to panel building and prototyping, we offer turnkey services that save you time, labor, and cost.

3

Top-Tier Technologies

We partner with the industry's best: Omron, Banner, SMC, Watlow, Turck, Eaton, ABB, and more, so you get premium technology with trusted local support.

4

Hands-On Collaboration

We are not just remote voices on the phone. We show up on-site, in the lab, at your facility with real solutions and real accountability.

5

Trainings & Expert-Led Education

Ramco customers benefit from expert-led training led by our applications engineers and supplier partners to keep you ahead of new and emerging technologies.

CORE COMPETENCIES

SENSORS & SAFETY

Protect your people and processes with advanced sensors and safety devices like scanners and e-stops.

ROBOTICS

Automate tasks like palletizing, picking, or welding with collaborative and industrial robots.

PNEUMATICS

Streamline motion and control with reliable pneumatic solutions for actuation, gripping, and air prep.

FACTORY CONTROL

Power your operations with PLCs, HMIs, and control systems built for scalability and uptime.

MOTOR CONTROL

Start, stop, and regulate motors with efficient drives, starters, and protection components.

MOTION

Achieve precise positioning and speed control with advanced motion and servo solutions.

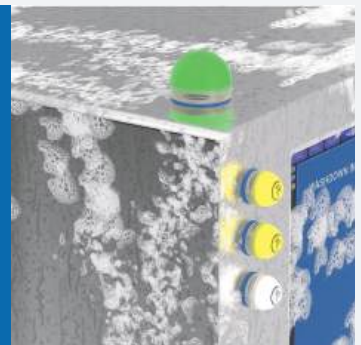

TEMPERATURE

Maintain heat and process control with sensors, controllers, and custom heating systems.

LIGHTING

Illumination and indication for workspaces and production lines with durable, energy-efficient lighting options.

INDUSTRIES SERVED

**AGRICULTURE/
AG TECH**

CONSUMER GOODS

**PHARMA & MEDICAL
DEVICE**

ENHANCED SERVICES

Your Partner in Innovation

PANEL BUILDING

Our UL 508A panel shop transforms your ideas into expertly engineered control panels, delivering reliable, custom-built solutions with world-class components.

KITTING AND ASSEMBLY

Streamline your production process with customized assemblies and pre-configured kits designed to meet your exact specifications and reduce costs.

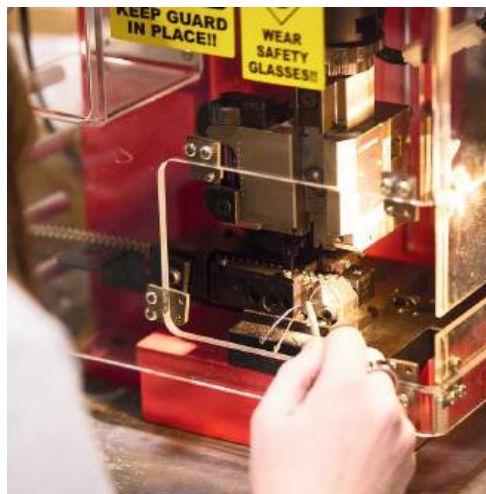

HEATERS AND CONTROLS

Tailored to your needs, our industrial heating solutions provide precise temperature regulation, efficient systems, and customized control panels for optimal performance and safety.

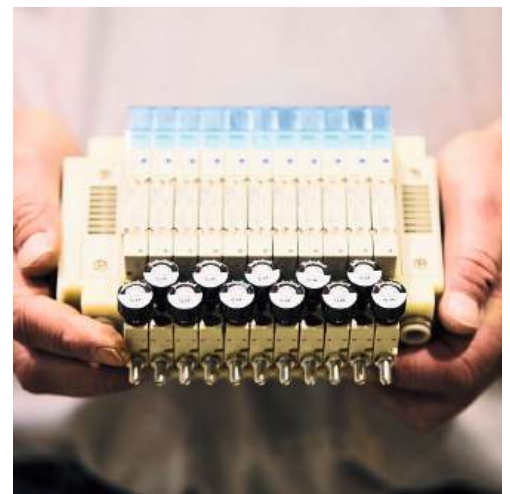

ENGRAVING

Our in-house engraving services deliver precision-crafted plates and designs with fast turnaround times, ensuring high-quality results for every application.

CONNECTORIZING & CABLING

Custom connector assemblies simplify installation, speed production, and let your team focus on what matters—saving time and easing labor strain.

PNEUMATIC ASSEMBLY

Ramco streamlines your operations with custom pneumatic assemblies built using trusted SMC products—ensuring reliable performance and easy installation.

ENHANCED SERVICES

Solutions Beyond Expectations

APPLICATION ENGINEERING

We understand that effective automation begins with a deep understanding of your unique challenges. Our Enhanced Services Team is dedicated to helping identify core issues and delivering practical, customized automation strategies that streamline operations and drive sustainable growth. Whether you're expanding your production facility or reconfiguring existing processes, our application engineers are here to make your life easier. **No matter how complex the challenge, we're committed to helping you solve it.**

ROBOTICS

Experience the future of automation with Ramco's High Tech Team of Application Engineers and Robot Specialists. We offer Proof of Concept services to identify the ideal robotic solution for your application, ensuring it enhances speed, safety, and efficiency. By filling labor gaps with advanced robotic systems, your team can focus on higher-value tasks, driving productivity and innovation. Our commitment guarantees that your new robot will meet your specific operational requirements, **transforming your processes with cutting-edge technology.**

THE APPLICATIONS ENGINEERING ADVANTAGE

**DESIGN BETTER
FROM THE START**

DON'T WAIT UNTIL THERE'S A PROBLEM.

Every project deserves a partner who helps it start stronger.

Our Application Engineers aren't just here to troubleshoot. We're here to **collaborate early**, help you avoid unnecessary complexity, and bring decades of manufacturing, integration, and automation expertise to the table — before anything is built.

OUR TRACK RECORD

It's as simple as a conversation. Before you request a quote, before the machine is ordered, before the spec is finalized, just reach out. You'll get:

- ✓ Ideas
- ✓ Troubleshooting
- ✓ Real world Insight
- ✓ Creative Alternatives

**Support doesn't stop at delivery.
We are here when you need us.**

Conceptual Design Collaboration

Not sure where to start? We'll help you talk through options, pressure-test ideas, and find smarter paths forward before specs are even finalized.

Experience Across Industries & Platforms

Our AEs have seen what works, what doesn't, and how to avoid common pitfalls in real-world applications from robotics to vision, pneumatics to PLCs.

Integration Across Product Lines

We don't just know our parts — we know how to make them work together. From robotics and PLCs to pneumatics and vision, we turn part numbers into solutions.

Your Think Tank on Call

We're not selling — we're solving. Our goal is to help you design smarter, not just react faster.

CONNECT WITH AN APPLICATIONS ENGINEER FOR A PROJECT

CUSTOMER TESTIMONIALS

EXACTLY WHAT YOU NEEDED

"We were totally stuck. We just couldn't figure it out. Ramco came in, pieced a few things together, and got it working. It was exactly what we needed, and honestly, a huge relief."

"We'd thrown everything at the problem, and they solved it in one visit."

"RAMCO'S AE TEAM DIDN'T JUST OFFER SUPPORT, THEY REALLY BECAME PART OF OUR TEAM."

THAT KIND OF PARTNERSHIP IS RARE."
